“Welcome those big, sticky, complicated problems. In them are your most powerful opportunities.” -Ralph Marston

Dear Parents and Guardians,

We are glad to have our students back and hope that summer was a growing experience for each and every one of them. With the new contract times and schedules are shifting for our students as well as our staff and our faculty is being given the opportunity to focus on parent engagement and post secondary readiness.

Our Parent's Association has worked hard to plan interesting topics for our meetings. This year our meetings will be geared towards the support needed for your student to succeed once they have graduated high school. We realize that not all of our

students are college bound, we want to make sure that all of our students are aware of their options and what those might be. That means empowering you as well as our students.

This year we want to make you as involved in creating an ideal attentive environment that can support all of the members of our community. We have created opportunities for active parent participation as well as adding an addition Parent/Teacher conference to each semester.
